

Fellow Barbershoppers

Allow me to either introduce or reintroduce myself. My name is Ken Thomas. A 20-year society member and longtime photographer.

Below are the answers to the inquires for the pictures and the pricing for the 2018 Spring NSC Contest. This year's contest the quartet photos will be taken after exiting the stage. As the escort guides you offstage you will be directed to an area in or near the lobby, please wait as I will step out after the quartet behind you finishes. This will allow me to capture performance shots as well as the formal poses of your quartet. These will also be the photos used for the NSC district website, so smile pretty. Each quartet will have ample time to strike their best pose after coming off stage. No formal shots for Saturday will be done unless a separate session is requested, please email me separately.

Chorus photos on Saturday will be done immediately after your performance like Winston Salem with a good vantage point. The lighting will be in the audience area and I will be in the middle aisle on a platform. Once your performance is completed and the judges are tallying their scores I will communicate with you and I will take at least three photos with flash. It is very important that everybody has a window and can square off to see me in the audience. After the final shot I will yell out a big thank you and you will be released from the stage. You will hear me clearly as I will be wearing a mic.

To help cover expenses I have proposed the following pricing structure for this contest (future events subject to change). Please see Digital package details and order form payment option on the next page. **If paying by check please make payable to Ken Thomas. All formal photos will be available in a week or less.**
