## To Be Considered:

**Communication** is most effective when you are reaching out using the best method for the *receiver* of the information. Knowing that, do you send Emails **AND ALSO** mention critical information & upcoming items at chapter meetings, use social media where appropriate, and contact those not in attendance, to be sure they are getting the information they need?

(We know some people don't read emails, or view attachments. Or they might be chatting during announcements...) Consider asking your members/visitors what is their best method of contact, and set everyone up for well-informed successes.
